FOR IMMEDIATE RELEASE

MCL & Associates, Publishes White Paper on Implementing Operations Research and Statistical Analysis (ORSA)

FREDERICKSBURG, VA, April 22, 2008– MCL & Associates (MCL), a leader in Business Process Improvement (BPR), today announced that it is making available its white paper, “How to Build an ORSA on a Shoestring, and Why It Is Important.” The paper addresses how to implement an In-house Operations Research and Statistical Analysis unit.

Topics covered in the white paper include:

- A Proactive Approach to Statistics Training
- Lack of Statistical Acumen
- Lack of Time
- Lack of Personnel With Mathematical And Analytical Skills
- Lack of Other Resources And/Or Money
- Why a “Shoe-String” Approach to ORSA is Important

If you would like to download a copy of the white paper, please visit: http://www.mcl-associates.com/index_files/PublishedArticlesandWhitePapers.htm

About MCL:

MCL & Associates, Inc. (MCL) is a veteran-owned small business, specializing in analysis, support and training for Process Improvement, Six Sigma, Change Management, as well as various ancillary program, project, and financial services.

MCL's two principals, Mark Lefcowitz and Cheryl Maxwell-Lefcowitz have a over 60 years of combined information technology and financial experience working for a variety of public and private sector clients throughout the United States. A staff of experienced functional managers, program managers, and senior analysts are available to solve your process needs.

Mr. Lefcowitz is certified as a Project Manager Professional (PMP), as well as a Certified Six Sigma Master Black Belt (CMBB). He has over 30 years of business analysis experience, the past 10 years specifically in the IT and process improvement arena.

Mr. Lefcowitz's most recent published articles may be found in the U.S. Army Journal of Installation Management, the Journal of Homeland Security, and TechRepublic.com.

Ms. Maxwell-Lefcowitz has served as Controller for five corporations. She has conducted over 50 due diligences.
